Would Give Him the Lie. Rounder—This gas bill is only twenty cents.

Clerk—Well, sir? Rounder—Better make it \$4.20. My wife keeps the bills, and I've been writing her that during her absence I've spent all my evenings at home.

There is no place like home—when a man is broke.

A PHYSICAL WRECK

Laid Up In Bed, Barely Jolting Onto Life. Doan's Effective

Marvelous Recovery.

"Without warning I was dragged to the brink of the grave by malignant kidney trouble," says Robert Wenzel, 114 Cypress Ave., Bronx, N. Y. "My kidneys seemed to stop acting and the pains in my back were terrible. Big, bloated puffs came under my eyes and attacks of dizziness often blinded me. My limbs swelled twice normal size and I could press big dents into the flesh."

"I was confined to bed and had convulsions several times a day. Despite the best of treatment, I grew worse and was taken to the hospital. I didn't improve, however, and was brought home again, barely holding onto life."

"Toward the last of 1913, a friend persuaded me to try Doan's Kidney Pills and I cannot put into words what they did for me. The first box helped more than all the other medicines and treatments I had taken. I continued and from an emaciated wreck of a man I have taken on good, solid flesh until I now weigh 225 pounds and am in the best of health. Doan's alone deserve the credit."

Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact.

Ridgway, Penn. — "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old." — Mrs. O. M. RIMMER, Ridgway, Penn.

Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga. — "I want to tell you how much I have been benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited." — Mrs. W. E. LINDSEY, R. R. 3, Tennille, Ga.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

WRITES A LETTER STATING FACTS

Colorado Man Was in Trouble for Twenty-Five Years, He Says.

GAINED TEN POUNDS

"Tanlac Has Sure Done Wonders for Me," He Writes—Expresses Desire to Help Other Sufferers.

Remarkable indeed is the experience of Antonio Lopez, residing in Roubidau, Colorado, as related by himself in a personal letter to Tanlac headquarters. His plain convincing statement follows exactly as it was written.

Roubidau, Colo., Aug. 25th, 1917. Mr. G. F. Willis, Tanlac Distributor, Dear Sir:

I want to write and tell you what Tanlac has done for me. I have been sick for twenty-five years and have not been able to eat any supper for five years, neither could I eat any vegetables or fruit because I would cramp so in my stomach.

I am sixty-five years old and before I started taking Tanlac I had gone down until I only weighed 138 pounds. After taking three bottles of Tanlac I have gone up to 148 pounds (gained ten pounds). I can eat a hearty supper, vegetables and fruit without the slightest of pain or gas troubling me.

Tanlac has sure done wonders for me and as I hope it may do the same for other sufferers. You can use this letter if you wish.

Yours truly, ANTONIO LOPEZ.

There is a Tanlac dealer in your town.—Adv.

The KITCHEN CABINET

Canned food will be needed next winter as it has never been needed before. Let your slogan be, therefore, can all you can and dry the succulent foods which will keep without canning.

Remember when heartick and weary: The sunshine comes after the rain: Tomorrow is time to be cheery—Tomorrow we take hope again.

Pickled onions are wholesome and make a good addition to the relishes for the winter.

Remove the outside skin but be careful not to break them. Soak twenty-four hours in strong salt water, wipe and put them in glass jars with pieces of sweet red peppers. Allow enough vinegar to fill the jars and to each quart add a teaspoonful of mixed spices. Seal the jars with the spices and cool it, then fill the jars. The second and third day, repeat, cooling it each time before pouring over the onions, the third day seal airtight.

Boiled Cider—Fresh, sweet cider, cooked down to half its quantity and bottled for winter use, may be used in the winter or at any season with carbonated water to make a most refreshing drink. The cider may be used for mince meat, pudding sauces and for various dishes.

Mint Punch.—Wash and brush a quart of mint leaves. Cover with boiling water and steep for ten minutes. Strain and chill, add one cupful of grape juice, one cupful of either strawberry or raspberry juice, fresh or canned. Sweeten to taste, using syrup instead of sugar, making a more bland and pleasant flavor than when raw sugar is used. Any fruit juice may be used that is at hand.

Cucumber Pickles.—Select the small cucumbers and to each hundred allow one ounce of whole cloves, one ounce of white mustard seed, one large tablespoonful of salt, one cupful of sugar and two small red peppers. Put the spices in this muslin bags, and put them with the washed cucumbers into a kettle with vinegar to cover. Heat slowly to the boiling point, take from the fire and put into cans. After a week, if they seem to soften, drain off the vinegar and add a half cupful of water and the same amount of sugar to two hundred pickles (using the very small ones), pour this boiling hot over the pickles and seal.

Orange Mint Julep.—Chop fine and rub to a paste, four sprigs of mint, add a tablespoonful of powdered sugar and mix this with the grated rind and juice of an orange. Add ice and carbonated water to make a tumblerful.

To save food the housewife must learn to plan economical and properly balanced meals, which, while nourishing each member of the family properly, do not encourage over-eating or offer excessive and wasteful variety.—United States Department of Agriculture

CANNING AND PICKLING. A good way to make chili sauce is to can the tomatoes when they are in their prime and set away to be made into chili sauce when there are not so many pressing duties.

Chili Sauce.—Take three quarts of canned tomatoes, add six chopped green peppers, four white onions also chopped, one cupful of sugar, half a cupful of salt, two cupfuls of vinegar and the following ground spices: One tablespoonful of cinnamon, one-eighth of a teaspoonful of cayenne pepper, half a teaspoonful of cloves and allspice mixed. This mixture is boiled for three hours and then bottled for winter use. This makes a thick sauce. By adding six cupfuls of vinegar instead of two a good catsup may be made.

Bordeaux Sauce.—Two gallons of cabbage, one gallon of green tomatoes, one dozen white onions, six red sweet peppers, all chopped fine; one ounce of whole allspice, one ounce of whole cloves, one-quarter of a pound of white mustard seed, one ounce of celery seed, one and three-quarters pounds of sugar, one gallon of vinegar and a half cupful of salt. Drain the tomatoes; cabbage and tomatoes are measured after chopping. Remove the seeds from the peppers. Cloves and allspice are put in small cheese-cloth bags. Boil twenty minutes, can and seal. This makes a dozen quarts.

Young carrots cannot be used pickled in the winter, adding onions, bay leaf, vinegar and cloves with celery seed, letting them stand in the mixture for a day or two. The same vinegar may be used several times.

Pickled Beets.—Take one dozen beets, two quarts of vinegar, one-quarter of an ounce each of mace and ginger, a saltspoonful of pepper and two tablespoonfuls of grated horseradish. Cook the beets until tender and cut up, add the seasonings to the vinegar and, when boiling hot, pour over the beets. Seal in jars. Sugar improves this pickle for many people.

Slightly green muskmelons make a most delicious pickle, prepared as one does the watermelon rind.

WESTERN MINING AND OIL NEWS

Western Newspaper Union News Service.

Prices for Metals.

New York.—Lead—\$9.62½ @ 10.12½. Bar Silver—98½c. Copper—Casting, \$24.62½. St. Louis.—Spelter—\$7.73.

Boulder.—Tungsten concentrates, 60 per cent, \$20.00 @ 25.00 per unit. Crude ore, 60 per cent, \$20.00 @ 25.00; 25 per cent, \$12.00 @ 15.20; 10 per cent, \$9.40 @ 12.20.

Arizona.

Work will soon be started on the tungsten mine at Dragoon.

The Nelson mine, near Crown King, has entered the producing class.

The August output of the Arizona-Binghamton mine at Prescott was very satisfactory to the management.

Johnson camp, twenty miles north-east of Benson is showing increased mining activity due to the rise in price of tungsten, the demand for copper and other causes.

Shattuck Arizona Copper Company's August production totaled 644,677 pounds of copper, 42,997 pounds of lead, 8,277 ounces of silver, and 77 ounces of gold.

Colorado.

One shipment from the Silverton camp totaled nearly 300 cars last month.

The Beacon hill is back in the producing class.

The Carbonate group on Mount Baldy is being steadily developed under lease and option.

Near Silverton the Henrietta mine, which has been idle for a number of years, recently started up.

The Passiflora Mining Company's concentration plant at Breckenridge has commenced operations.

The Acme mine at Louisville, after an idleness of seven years, will be reopened for the production of coal.

Recent developments on the Mary Murphy mine at Cave Basin disclosed a vein eighteen feet thick and averaging about 375 per ton.

The July production from the Elkton mine of the Elkton Consolidated Mining and Milling Company totaled thirty-three cars of mine ore, valued at \$18 to \$20 per ton.

The Sprague-Dean lease on the Baker group on Gibson hill is being worked throughout the lower tunnel.

A recent shipment of the first-class lead ore sold for \$85 per ton.

Mining men say that conditions brought about by the war have made it imperative that the mining industry should organize more thoroughly for the protection of its interests.

The free gold pockets of the Dunkin property on Nigger hill range in value from \$10,000 to \$30,000. One of the pockets yielded a slab of gold which had to be bent with a double hand-striking hammer before the slab of gold could be put into an ore sack.

Montana.

American Smelting and Refining Company for the six months ended June 30 earned \$10.24 on common stock, against \$16.26 a year ago.

Work has just started on a standard rig on section 3, about six miles west of Fort Bridger, for the Wyoming Consolidated Oil Company, composed of Utah business men.

The Anaconda Copper Mining Company, whose mines and smelters have been closed for several weeks because of a strike, announced that operations would be resumed, a settlement of labor difficulties having been effected.

New Mexico.

The Oaks company opened up new ore in both the Deep Down and Maud S Mines at Mogollon, and ore shipments have been doubled.

The Mesa Verde Oil company has been organized at Farmington for the purpose of further testing out the petroleum possibilities of the San Juan basin.

Thirteen 100-pound bars of gold and silver, besides concentrates were marketed by Mogollon Mines Co., for the last half of August. Production and development work are being carried on to capacity.

Ten miles north of Las Cruces and only four to eight miles from the Santa Fe railroad, east of the Rio Grande, a number of prospects are being developed by experienced mining men. The ore carried are gold, silver and copper.

The copper and zinc mines at Cowles on the upper Pecos, thirty miles east of Santa Fe, have been sold by the Cowles estate to D. C. Jackling, the Utah copper king, according to report at Santa Fe. The consideration is given at \$1,500,000.

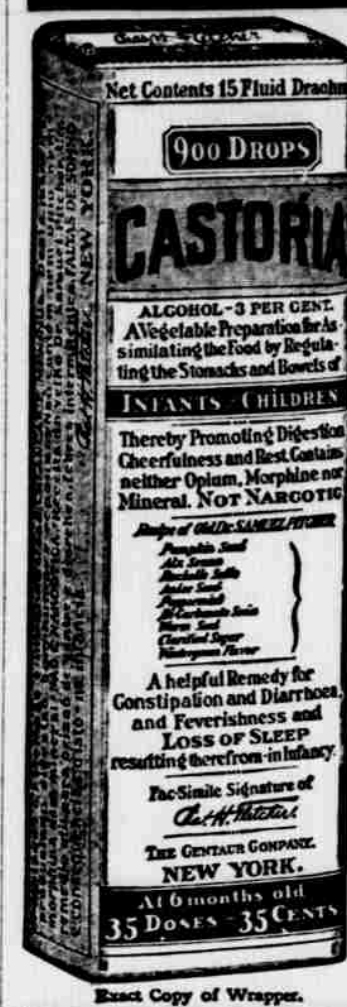

Wyoming.

The Premier Oil company's well, in section 10, has reached a depth of 2,600 feet.

Storage facilities are now being erected by the Glenrock Oil company to take care of the production.

The Allen well on Sec. 20-40-75, which was brought in two months ago, is preparing to put on a pump.

The Kinney deep well on section 4 was reported 100 feet into the sand and flowing regularly 2,400 barrels a day.

On Writing Letters.

"I was told by Capt. Harry Light the other day," writes a Canadian major, "that there is a new style in trench letters. The censor's duties have been reduced by many per cent. The soldier now has the sense of the situation engrained in his thinking. He sees through the need of keeping quiet even on matters that call for some criticism. There is more humor and matter-of-factness about his letters. One of my men, who can't write very well, was telling me the other day that one letter a week is all that he can summon up his courage to write, and he gave this as a reason: 'The people at home don't, can't understand life here. We have got to go through it. Why tense them with anxieties—they have enough to put up with in pacifists and political grumblers.' And I think he is right. Don't you?"

LIFT YOUR CORNS OFF WITH FINGERS

How to loosen a tender corn or callus so it lifts out without pain.

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug dries at once and simply shrivels up the corn or callus without even irritating the surrounding skin.

A small bottle of freezezone obtained at any drug store will cost very little but will positively remove every hard or soft corn or callus from one's feet.

If your druggist hasn't stocked this new drug yet, tell him to get a small bottle of freezezone for you from his wholesale drug house.—adv.

Women Drive War Automobiles.

Between 150 and 200 women soon will be driving military motor cars behind the French front.

Women have tried since the beginning of the war to enlist in the automobile service. The Club Feminin Automobile was the center of this group, and it had secured the signatures of several hundred of the thousand women in Paris who hold licenses to drive motor cars.

The passive resistance of the different war bureaus held them back until now.

The women are obliged to enlist for three months and to agree to submit scrupulously to military rules and discipline. They will in the beginning replace motor ambulance drivers in the foreign sanitary sections who are transferred to other services. Later on they may replace men in other automobile sections.

"Wife a Good Sport."

W. S. Desmond, a carpenter of Huntington Lake, Cal., is above the selective draft age limit, but he wanted to join the army.

He told his wife, she objected. He offered to match pennies with her. She agreed. He suggested heads, stay at home, tails got to the front.

They matched and tails won. Desmond enlisted in the field artillery. "My wife's a good sport," he told the recruiting officer.

Nitrogen From Air.

The production of nitrogen from the air in Germany, which was only 30,000 tons in 1913, has been so successful that 300,000 tons were so produced in 1916, and it is expected that 320,000 will be produced this year. According to the Frankfurter Zeitung, the cost is only six cents a kilogram.

Soldiers and Officers.

The lieutenant was testing the squad in visional power.

"Tell me, No. 1," he said, "how many men are in the trench digging party over there?"

"Thirty men and one officer," was the reply.

"Quite right. But how do you know one was an officer at this distance?"

"Cos he's the only one not working!" —Scottish American.

A woman would rather people thought she was tailor made than self made.

A woman who loves money doesn't necessarily love a man because he has it.
